-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 31 October 2007.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/31/07 has been entered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 29-31 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The originally filed specification of 12/18/2001 does not disclose tracking the number of times a song is played. The originally filed specification tracks both the number of transfers from server to terminal, and how frequently a user played a piece of music (e.g. "taste"). Neither of these are tied to the number of times a user played a piece of music. The transfers are file transfers, and not playing the music. The "taste" is based on how long ago (frequently) a user played music, not how many times the user has played the music.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the

Art Unit: 2145

applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 29-31 are rejected under 35 U.S.C. 102(e) as being anticipated by Tsai (U.S. Patent No.

6,572,381).

6. In regard to claims 29-31 (all claims have equivalent subject matter), Tsai disclosed:

a storage section which stores data of pieces of music that a user possesses, and is adapted to store a number of plays of each of said pieces of music, and column 8, lines 46-61

a transfer section that transfers the data, and column 8, lines 46-61

a portable terminal adapted to reproduce the music while disconnected from the server apparatus, comprising column 8, lines 46-61

an interface that receives the data transferred from the transfer section, column 8, lines 50-54

a terminal-side storage section that stores data received through the interface, and column 8, lines 46-61

an updating section that updates a number of plays of each piece of music that is reproduced, each time said reproducing is completed at the portable terminal, and that stores the updated number of plays of each of said pieces of music in the terminal-side storage section; column 22, lines 45-56

wherein, if the portable terminal is connected to the server apparatus through the interface, the updated number of plays of each of said pieces of music stored in the terminal-side storage section are sent to the server apparatus, and the server apparatus updates the number of plays of each of said pieces of music stored in the storage section in accordance with the updated number of plays of each of said pieces of music stored in the terminal-side storage section. Column 22, lines 45-67

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
